

Student Transfer Arrangements

All registered providers of higher education in England are required to publish student transfer arrangements for incoming and outgoing transfers in accordance with the Higher Education Research Act 2017 and the Office for Students' Regulatory Framework 2018.

Transferring to Greater Brighton Metropolitan College

Greater Brighton Metropolitan College facilitates transfers between HE providers, students will need to apply through UCAS and provide official transcripts detailing the modules completed and the credit value of each. This will be assessed by the tutor to decide whether a transfer is possible.

To enter the start of Year 2 / level 5 students will need 120 credits, to enter the start of year 3 / level 6 students will need 240 credits. Students may also be required to attend an interview/audition and present a portfolio of work.

Transferring to another institution

Where a current student would like to transfer out of Greater Brighton Metropolitan College to a different institution, the possible implications as detailed below will need to be considered.

Prior to any formal request for a transfer, the student should consult with their programme lead. Following this, the Admin team will be able to give information on gaining certification for the modules completed and the formal withdrawal process.

For each full-time year of an undergraduate degree or foundation degree completed 120 CATS credits are awarded. Final degree classifications may be weighted differently across the years at different institutions.

Transferring to a different institution or degree may have implications on studies or finances. Before formalising a transfer, students will need to consider the following possible implications:

- Student Finance England loan arrangements (if applicable)
- Financial agreement with the college (if applicable)
- The calculation of the final degree classification
